

# HELP YOUR STREET GROW

## PLANT A STREET LIBRARY IN YOUR FRONT YARD

**JOIN THE GROWING COMMUNITY OF STREET LIBRARIANS.** Building a love of books and reading in your community can begin in your front garden, outside your business or at the local shops. A Street Library provides a publicly accessible space for sharing books you no longer need. Its a great way to join the sharing economy, bring your community together and contribute to a more sustainable future.

Street Library books come and go; no-one needs to check them in or out. You can reach in and take what interests you; when finished, you can return the book to the Street Library network, or pass them on to friends.

Want to get involved? Street Library can provide you with your very own 'home for books' or you can come along to a workshop and build one yourself.

Building and painting your Street Library is a great way to get your neighbours, local kids or even work colleagues together to make a positive change. You can even sponsor a library for a community in need.

Visit [streetlibrary.org.au](http://streetlibrary.org.au) and let your community benefit from the joy of books. The libraries are a symbol of trust and collaboration – a tiny vestibule of literary generosity.
